WIND'S INNOVATIVE NAVIGATORS AND GOAL-SETTING SCHOLARS
(NOW INTRODUCING VIRTUAL REALITY TRAINING)

Class Begins Tuesday February 10th at 5:00 PM

Curious about how planes work or what it's like to fly one? This intro to aviation includes a virtual reality flight experience that puts you in the pilot's seat no experience needed. Explore the skies, learn the basics, and experience hands-on VR training. Open to all Lake County residents ages 11 - 19.

LEARN TO FLY

- Understand how planes fly and how control towers work
- Get hands-on instruction from a licensed pilot
- No prior experience needed just bring your curiosity
- Explore career paths in aviation and aerospace

SIMULATE FLIGHT

- Log simulated flight time using cutting-edge technology
- Practice takeoffs and landings in a virtual cockpit
- Experience realistic flight training through immersive VR simulation

EARN YOUR WINGS

- Receive an "Intro to Aviation" certificate upon completion
- Learn about scholarship opportunities through AOPA
- Take home your own flight bag and WINGS token as a keepsake
